

Generation

A New Revolution

We are the voice of our lives,
But no ones listening.
We hang our words on the lie,
But doesn't mater any way.

And how long, how long,
Can I fake this?
And how long, how long,,,

My generation,
A division,
Come along with me,
Cause I don't care for you're morals,
And religion
Come along with me, come along, my generation...

We are the face unified,
But this ceeps sinking.
Theres no mistake,
No more lies...
It's gona fuck us any way!

And how long, how long,
Can I fake this?
And how long, how long...

My generation,
A division.
Come along with me,
Cause I don't care for you're morals,
And religion,
Come along with me, come along, my generation...

We hang ur words on a lie,
But no ones listening.
Theres no mistake,
No more lies...
(It's gona fuck us any way)

And how long, how long,
Can I fake this?
And how long, how long...

My generation,
A division.
Come along with me,
Cause I don't care for you're morals,
And religion,
Come along with me, come along, my generation!

You're the voice of our lies,
We hang our words on a lie...

My generation....
