

Soulflayer

Angel Corpse

Firestorm within flesh
Carnivorous limpid eyes
Behind ecstatic lips
The crush of breath expires

Profanation-violation
Hammer bring down war
Penetration-Suffocation
Lust infernal storm

Warhead weeping wound
Orgasmic thrust one hundredfold
Flagellate ripping spine
One thousand cuts explode

Profanation-violation
Hammer bring down war
Penetration-Suffocation
Lust infernal storm

Lust infernal-Soulflayer

Blood exhale from back drawn lips
Hammer bring down war
Cruelty sucking at my steel
Lust internal storm

Torment fluids burn
Resurrect the suffering
Lain down torn apart
Soulflayer rise again

Profanation-violation
Hammer bring down war
Penetration-Suffocation
Lust internal storm
