

## That Which Lies Upon

Angel Corpse

Lascivious that which lies upon  
A chimera of orgiastic buggery  
Sodomite pedophile gaping welterd cunt  
The tenderness of little girls is not unknwown to me  
Ripping sacred vestments venereal debauch  
Frozen phalanx thrusts  
Dampened walls summmon hallucinations  
Erupting wicked cold that burns like fire

Daughters of joy await the vulgar visitation  
Depravity nocturnal - emissive lusts they crave  
Inject impurity filth and fornication  
A winged satyr raping unsullied maids

A lewdness flailing enter clubbing whip  
Bestial defloration serpent riding virgin whores  
Their bloodied gates wide open for all to see  
Into the realm of the despicable unborn

Urinary baptism and licked clean  
Eat until it poisons me  
Enslaved to those fleshly folds  
Erected into bleakness

Unchaste phantasmagoria  
The salacious sordid pulse prevails  
Corrupting every orifice  
Greedy for love

This flesh corrupt  
On bestial bloodstained wings  
Rites of disgust  
The incubus obscene

Lascivious that which lies upon  
A chimera of orgiastic buggery  
Sodomite pedophile gaping welterd cunt  
The tenderness of little girls is not unknwown to me  
A lewdness flailing enter clubbing whip  
Bestial defloration serpent riding virgin whores  
Their bloodied gates wide open for all to see  
Into the realm of the despicable reborn
