

## When Abyss Winds Return

Angel Corpse

I am the warfare  
Blasting in from the blazing horizons  
I am the abyssic lust  
Tasting blood from the lips of the dying

Plague bearer  
World shatterer

I am the reaper's blade  
Writhe sadistic merciless  
I an become death  
Caressed by pallid fingers  
I am the cruelty  
That chaos doth evoke  
Bearer of the black standard of war  
When abyss winds return

Mountains smashed-crumble down  
Bring to boil a sickly sea  
Dance in the ashes of my enemies  
10,000 years of victory

Plague bearer  
World shatterer

I am the flames  
That feast upon your fear  
I am the lingering coals  
Spawn of blessed cremation  
I am the malignant goal  
Of our funerary sacrifice  
A Phoenix born of the Fallen Age  
When abyss winds return
