## When Abyss Winds Return

**Angel Corpse** 

I am the warfare Blasting in from the blazing horizons I am the abyssic lust Tasting blood from the lips of the dying

Plague bearer World shatterer

I am the reaper's blade Writhe sadistic merciless I an become death Caressed by pallid fingers I am the cruelty That chaos doth evoke Bearer of the black standard of war When abyss winds return

Mountains smashed-crumble down Bring to boil a sickly sea Dance in the ashes of my enemies 10,000 years of victory

Plague bearer World shatterer

I am the flames That feast upon your fear I am the lingering coals Spawn of blessed cremation I am the malignant goal Of our funerary sacrifice A Phoenix born of the Fallen Age When abyss winds return
