

# Never

Angel Dust

Horror in my eyes  
I don't know whats going on  
List in hell  
Nothing remains the same  
Creatures of the night  
arise in me  
Darkness around me  
Encourages their evil deeds

I feel my mind  
is leaving me  
I will follow into eternity

A light shines on me  
I feel the sun arise  
Fire will banish my fear  
My dreadful  
black dreams  
No longer they'll  
scare me  
Until the night returns

How long can I stand  
The return of  
the eternal curse  
Deliver me of all the pain  
The fear of the dusk  
paralyses me

Black is the jail of my soul  
In my haunted nights

[Chorus]
