

## Battle Cry

Angel Haze

Money cannot buy  
All the love that's here tonight  
All the love that's here tonight  
Ouh-ouh  
It's just you and I  
So lift your hands toward the sky  
Lift your hands toward the sky  
Ouh-ouh

It seems like yesterday that I was nothin'  
Then all of a sudden I'm a volcanic eruption  
Then all of a sudden it's like spontaneous combustion  
And I'm all up in your face yellin': "Bitch, you can't tell me nothin'"  
Cause I came from the bottom, now everybody's watchin'  
I said it was my time, now I'm who everybody's glockin'  
And I'm just out here sprintin', I'm runnin' right through my vision  
I'm trying to out run my past, but still trying to defeat my limits  
Cause you only get one moment in this life to be great  
And you give it your all despite what it takes  
And you never let 'em kill you, you take everything they give you  
And throw it right fuckin' at 'em and tell 'em it doesn't build you  
And no it don't ever break you, and no it can't overtake you  
Life's like a bed of roses, you take the thorns and you make do  
Sometimes you have to hurt for the cause to be reached  
But one day you'll be stronger then all that you beat  
And you can say

Money cannot buy  
All the love that's here tonight  
All the love that's here tonight  
Ouh-ouh  
It's just you and I  
So lift your hands toward the sky  
Lift your hands toward the sky  
Ouh-ouh

I woke up one Sunday morning, stopped believing in Jesus  
Stopped believing in churches, I stopped believing in preachers  
I realized I was a teacher, not just one of the heathens  
I'm born to destroy the fallacies, stop creating believers  
Start creating the leaders, tell 'em who they should follow  
Nobody but themselves, especially if they hollow  
Especially when they empty and death reserves for fulfillment  
You the only person alive who holds the key to your healin'  
So you take it and you run with it  
And keep going even when your suns hidden  
Because the time we spend in darkness when the rain comes  
Is where we often find the light soon as the pain's done  
There ain't material things in the world  
That can change the fact that you feel lonely  
Despite the fact that it gets hard, you take it all and you still go  
Take the sun and you still grow, lose the light and you still glow  
I been there, I'm still here and I know how you feel, so

Money cannot buy  
All the love that's here tonight  
All the love that's here tonight

Ouh-ouh  
It's just you and I  
So lift your hands toward the sky  
Lift your hands toward the sky  
Ouh-ouh

We don't wanna fight  
So sing with me our battle cry  
Sing with me our battle cry  
Ouh-ouh  
Money cannot buy  
All the love that's here tonight  
All the love that's here tonight  
Ouh-ouh

It's hard to explain my way of living to people who never lived it  
A minute in my position filled with my opposition  
That anybody not different fighting to stay the same  
I got lives in my hands and I'm fighting to make 'em change  
Couldn't accept responsibility, find somebody to blame  
The emotions that I'm harboring 'bout to drive me insane  
Tried to say fuck everything, but I ain't have the heart to  
Rarely had the heart to do a lot of things I ought to  
So now I spit it for people who say their cords missing  
Inspire life into anybody that's forfeiting  
Cause it's easy to keep pretending that there's nothing wrong  
But it's harder to keep their head up and be fucking strong  
So, now they telling me "go, Haze, they can't stop you  
Heavyweight flow, if they can't lift you then they can't drop you  
The pinnacle, if they can't reach you then they can't top you  
Man, they can't do anything that you're about to"

Money cannot buy  
All the love that's here tonight  
All the love that's here tonight  
Ouh-ouh  
It's just you and I  
So lift your hands toward the sky  
Lift your hands toward the sky  
Ouh-ouh

We don't wanna fight  
So sing with me our battle cry  
Sing with me our battle cry  
Ouh-ouh  
Money cannot buy  
All the love that's here tonight  
All the love that's here tonight  
Ouh-ouh
