

# Fall For Your Type

Angel Haze

Yeah, haze

You are an oceans breeze, I am a tittle wave  
You every paragraph, I'm just the tittle page  
You have the heart I hold exactly where you desire it  
It's all so effortless, like what you did to acquire it  
Each time I find it harder just to keep my composure  
I'm tryina show you all of me like indecent exposure  
Look, I'll be the gun  
You be my holster  
I need your love, I need you closer  
Seems like forever when only an hour past  
We fallin' slower then grains of salt in an hour glass  
Emotions runnin' wild  
You are who tames them  
My only means for tranquility, you my sanctum  
And if I could I'd take your eyes and make them blend  
in with the stars  
So whenever we ain't together I'll see still them from  
afar  
But that's insane  
I'll do whatever just to feel you  
Even all of that don't come close to what I will do  
They say love hole the power to  
Fulfill you, heal you, kill you, hurt and abuse you  
Take away from what you use to  
I'm tryina paint a picture, like a canvas plain  
To try to put together words like a scrabble game

I said I wouldn't stop until I said what I needed to  
right? alright let's go

Look, I poured my heart out in an effort just to win  
you  
And I defy my actions solely so they won't offend you  
I mean I would wrestle time, even if it get re-winded  
Everything you lookin' for, in me is where you find it  
So you can stop your searchin' baby  
I know you hurtin' baby  
Your self-esteem so low sometimes that you feel  
worthless baby  
Okay, you hide it well  
But you know I can tell  
I see right threw that bullshit that you be tryina sell  
So let it drop, let it fall  
Let it blow with the wind  
I told you once, I told you twice and I'm a tell you  
once again  
That I'll be here, yeah said I'll be here  
And, if love is blind, then my mental clear  
And all we have is time  
And good intentions  
Fuck you brake, fuck your suspensions  
Put your foot up on that gas  
And drive 'till you don't see your past  
I said drive 'till your vision blurs  
And let my voice tell our story

Fuck let them hate we where they never was  
And fuckin' Shakespeare couldn't of wrote a better love  
But people tell me that I'm trippin, I say you  
different  
And when they ask me how, I can't provide a  
description, you don't need one  
I would disconnect them all, like a broken joint  
Just to prove I only see you like a focal point  
I know that the distances, may cause complications  
But you make me feel good, fucked up, exonerated  
Still I wonder what you like beneath the shackles that  
you wearin'  
I've been longin' to release you from a load that's  
overbearin'  
Tell me, are you protected by your guard boo?  
Or could I blow and make it fall like cards do  
And I ain't interested 'till it involves you  
You got your doors locked and I just saw through  
You reached the height of loneliness, cause we all do  
But everything that goes up gotta fall to

I always fall for your type, yeah, for your type  
Tell me why I always fall for your type, for your type  
I just can't explain this shit at all, fall for your  
type  
I just can't explain this shit at all, fall for your  
type  
I believe in people like you
