

# Higher

Angel Haze

Can we just get higher up, hey  
Can you take me higher up, hey

Can we just get high?  
Then find each other  
Through each others thighs  
Find new life through each others eyes  
Fuck til' it hurts, til' I make you cry  
Can we just get low?  
Then find us in each others soul  
Get deep enough that we gotta float  
I mean get deep enough til' we establish hope  
In us, cause I know you gotta be tired  
Cause I know you tired of theses lows  
And I know you wanna get high  
And I know everything you desire  
I'm the only person that can give it to you  
I know your secrets buried deep and I know  
You want me to dig into you  
Scratch all on my soul  
My tongue on all your braincells  
We carry on, you get the message  
I'm straight for it like a chain mail  
You on fire, I lick your skin  
And I taste hell  
Clothes ain't needed where we goin'  
Drop a lot like your weight fell  
Give me 1 minute  
Make it to the top  
Everything I am made me what you not  
We perfect for each other  
Need a new fit, perfect for the weather  
Up and away, escape through a maze in a mind  
Amazed what I find  
Can we stay high like  
We take it to the sky  
Can you make me fly like  
Can you take me high like

Higher up  
Can you take me high like  
Can you take me high like  
Can you make me fly like, hey hey  
Can you make me fly like  
Higher up  
Can you take me off  
Can you lift me up  
Can you take me off  
Can you lift me up  
Can you pick me up  
I want your love  
But you kissin' up  
To make me feel like that  
Make me feel like that  
Higher up  
I want your love  
Can you make me feel like that

Can we just get to know each other  
I mean you can know whatever  
So far beyond physically  
When I touch you it's like I'm feelin' me  
I mean really like I'm feelin' peace  
With myself with the enemy  
We can be best friends there to the depth  
But I fuck you like my enemy  
Can we get so close that  
The heat from our body  
Run the air to toast  
I mean get so close that  
The air to smoke  
I mean get close enough that  
We can turn the air to ghost  
We can feel our heart beat to the same tune  
We can share the same air in the same room  
There's a whole lotta pain we just may do  
Cause if ain't about me then it ain't you  
See that's what the fuck I'm talking about  
Cause I know you real, and I know you got it  
If chances you ain't for me then I track it  
Down and fuckin' shot it  
Just time, space in between us  
No past pains to mislead us  
Higher up, higher up  
No gravity  
In between us

Higher up  
Can you take me high like  
Can you take me high like  
Can you make me fly like, hey hey  
Can you make me fly like  
Higher up  
Can you take me off  
Can you lift me up  
Can you take me off  
Can you lift me up  
Can you pick me up  
I want your love  
But you kissin' up  
To make me feel like that  
Make me feel like that  
Higher up  
I want your love  
Can you make me feel like that

Cause I've been close before  
I mean really fuckin' close before  
Everything I love leaves  
And I really don't wanna hurt no more  
I don't wanna feel like dirt no more  
So baby, come make me clean  
Can we make our word a bond  
And only say what we mean  
Gotta whole lotta love to give  
And gotta past that just won't leave  
Can I be the one to open yo' eyes  
Cause you get what you see  
And I want you to see what I am  
See everything like spy cam

I want to see what's down in my soul  
And make the message instant like I AM  
Cause honestly I'm tryin' give you  
What's best of me and  
Good love is hard to make  
If truth ain't no recipe  
Come rescue me  
Come clean what's left of me  
Your my escape  
Your my drug  
Human ecstasy

Higher up  
Can you take me high like  
Can you take me high like  
Can you make me fly like, hey hey  
Can you make me fly like  
Higher up  
Can you take me off  
Can you lift me up  
Can you take me off  
Can you lift me up  
Can you pick me up  
I want your love  
But you kissin' up  
To make me feel like that  
Make me feel like that  
Higher up  
I want your love  
Can you make me feel like that
