

Initiation

Angel Haze

I look a replace of you and you face
All surrender me, the shape of my fake
And I kiss you on silence
I don't make a sound, and it I say, it I say, it's going down
Taste you, taste you, lean up between us
..straight from your codeine cause
Inhale it like the air between us
We up and down, and down like
Underneath the sky, baby come help me fly
Yeah underneath this game begging me to let you ,to let you, be
gging me to let you,to let you, begging me to let you ,to let y
ou, begging me to let you in
I like poetry and you want top like you're over see
And if I pull you down the last time
I know cuz I can taste the air that you smoke
And I get high even on my knees when I taste the air that you s
moke
And I follow the in the sadness 'till where ever you go
One more shots you're hit by amnesia, forget what ever you know
And you tell me not to worry cuz that passion makes me safe
Cuz it's one more clouds that we have it but we hit it on our w
ay
And I get tell my fate 'till we hit the raise on road
And you take me to that place were I can reveal what's on my mi
nd
And we both drive on lines but on a blue day
And I take you to my place and fuck you with my
So you got a perception to space
And no perception on time
And we can press , and
And if you want that broken dream I got that green day
Underneath the sky, baby come help me fly
Yeah underneath this game begging me to let you ,to let you, be
gging me to let you,to let you, begging me to let you ,to let y
ou, begging me to let you in
And here go and sing again underneath the sky, baby here we go
again, yeah, yeah
And here go and sing again underneath the sky, baby here we go
again,
Underneath the sky, baby come help me fly
Yeah underneath this game begging me to let you ,to let you, be
gging me to let you,to let you, begging me to let you ,to let y
ou, begging me to let you in
Underneath the sky, baby come help me fly
Yeah underneath this game begging me to let you ,to let you, be
gging me to let you,to let you, begging me to let you ,to let y
ou, begging me to let you in
