

Twisted

Angel

She wants a button down boy
She wants to cut your hair
She wants a wind up toy
I won't go there
I'm not out to change you baby
Or make you something
That you're not

[Chorus]
I connect with everything
That you're thinking
I respect that you're
As crazy as me
She won't let you be you
She just missed it
She's not twisted
Enough for you
She's not twisted
She don't get you like I do

She's a real nice girl
Even kinda cute
But she'll never understand
You like I do
She's just not the right one baby
Can't you see that she's all wrong

[Repeat Chorus x1]

[Bridge]
I don't care what they all say
Opposites distract

Now I'm standing here waiting
It's almost twelve o'clock
And I Know you'll show
Cause you read my thoughts
If I'm not mistaken baby
I'm about to be with you

[Repeat Chorus x1]

Oh she's not twisted
Oh No, Oh yes,
Yes once a button down boy
