

Sucker

Angela McCluskey

New town and a new home
To save your skin
This is where your new life should begin
Still after weeks
You toss and you turn in your sleep

And you know that whatever you do
Someone keeps looking for you
New life and a new view
To save your soul
This is where you dig your hole

And you know that whatever you do
Looking for you

No one believes that it's true
What that fucker can do
Aw you know what that sucker can do
Yeah you know what that mother can do
Yeah you know what that fucker can do

You know what that fucker can do
Aw you know what that sucker can do
Aw you know what that mother can do
Yes you know what that fucker can do
