

As the Passion

Angelic Upstarts

I don't want your charity
Maybe that's what you see
I'll keep on fighting till the very end
With anything that comes to hand
You can't see through that and this is what I say

As the passion
Runs through my soul
We turn and face
Our final goal

Virgin soldiers like you and me
We can taste victory
No religion just what you see
And when we fight the final war
It'll be what you've been waiting for
We'll rise through the ashes that they have stole
And the tide will turn for you and me
