

Crazy

Angelina

Crazy, you will always be my baby
Nothing in this world could persuade me
I love you - this is true
And forever, we will always be together
Starlight, starbright, first star I see tonight
Oh, I wish if I may, and I wish if I might
Let him know how I feel and that my love is real
My friends are telling me that you're no good for me
If they could only see just what you do to me
Whoa, if they could only see just what you do to me
And, boy, you're driving me...

Sunset, sunrise, you're always on my mind
Oh, I'm wishing by day, and I'm wishing by night
Let him know how I feel and that my love is real
My friends are telling me...
