

Just Another Day

Angelina

Just another, just another, just another day
Just another, just another, just another day
Just another, just another, just another day
Just another, just another, just another day

Just another day, before the weekend
Just another day
Just another day, before the weekend
Just another day
Monday, Tuesday, Wednesday, Thursday

Seems like Monday is my worst day
Coming back from my weekend of fun
Then Tuesday comes, it feels like Monday
It's dragging on and on
It's so hard because the week has just begun
Can't hardly wait, cannot wait until it's Friday
Can't wait to play, i'll call my friends we're gonna party
The weekend's my time to get away, gonna dance 'til it gets late
But i know today is just another day

Just another day, before the weekend
Just another day
Just another day, before the weekend
Just another day
Monday, Tuesday, Wednesday, Thursday

Day by day it's the same thing
Gettin' up with the morning sun
When Wednesday comes it gets too tough
And by Thursday, had enough
Lookin' forward to the day I can have some fun
Can't hardly wait, cannot wait until it's Friday
Can't wait to play, i'll call my friends we're gonna party
The weekend's my time to get away, gonna dance 'til it gets late
But i know today is just another day

Just another day, before the weekend
Just another day
Just another day, before the weekend
Just another day
Monday, Tuesday, Wednesday, Thursday

Just another, just another, just another day
Just another, just another, just another day
Just another, just another, just another day
Just another, just another, just another day
Just another, just another, just another day
