

## Good Day

Angels & Airwaves

We don't need to whisper

I should have turned back  
I should have known better  
Than to walk away defeated  
I'll say it tonight, I'll say it forever  
And this time I really swear I mean it

Oh I need you now  
The Earth fell fast asleep  
This room is safe and sound  
Will you lay here with me  
And feel it..

I think I like today  
I think its good  
Its something I can't get my head around

True love is something that comes easy  
Just one kiss god I swear I want to...  
I heard a pin drop and a nervous heartbeat  
Have you ever heard me scream I love you

Oh I need you now  
The Earth fell fast asleep  
This room is safe and sound  
Will you lay here with me  
And feel it..

I think I like today  
I think it's good  
Its something I can't get my head around [x2]

dadah da dah dah dadadah [x8]

I think I like today  
I think it's good  
Its something I can't get my head around [x6]
