

one day in summer
a light comes to me
opens up my heart
and leads me to
a place where sadness
melts like wintersnow
a place full of faith
a little peace of heaven

the sun shines high in a sapphire sky
fly away my butterfly

one night in summer
the light comes again
it brings me hope
delivers me from pain
and assures me gently
when night turns into day
and spring into summer
you will find the way

the moon shines bright in a starry night
fly away my butterfly
