

## Life Story

Angie Stone

Sittin' here wondering, pondering  
Every little thing  
And I'm lookin' back, lookin' at  
All the time I been searching, ooh

I ain't scared to tell you  
That I'm ready for you  
Open the door  
More to life than livin'  
I want you to come into my heart

Cuz this is my life story  
And it's for you only  
Give you everything

Come into my love story  
Give you all the glory  
Give it up to you

No one knows what tomorrow holds  
Or if it ever comes  
So I'm gonna take my chances, baby  
You're the only one, ooh

I ain't scared to tell you  
That I'm ready for you  
Open the door  
More to life than livin'  
I want you to come into my heart

Cuz this is my life story  
And it's for you only  
Give you everything

Won't have another day without you in my life  
There ain't no other way for us than love

Cuz this is my life story  
And it's for you only  
Give you everything

This is my life story  
And it's for you only  
My life, my life, my life story

This is my life story  
And it's for you only  
My life, my life, my life

This is my life story  
And it's for you only  
Give you everything

Come into my love story  
Give you all the glory  
(Give it up to you, oh)  
Cuz this is my life story

And it's for you only
