Pop, pop, pop bottle top, body rock, beat don't stop

We're chilling agin,
I want to be, more than a friend.
Cause you taken me to places I never been before.
Feeling like I'm yearning for a little more.
And (damn) I want to begin to build with you,
Let it do what it do.
Cause we been talking and kissing and loving like every night.
And if that's wrong I don't want to be right.

R:

Look what u done, making me run, straight to your arms.
Boy you know you only get the best of me.
Flowing like a book full of poetry. (damn)
I'm thanking your mother for making your brother
Tell her I love her
Boy, you know ure everything I need.
You're the missing link to me

R:

It gets no better than this, cause your kiss is sumthin I just
don't want to miss (2x)

Boy you know we gone do this
Yes, we gone do this
(2x)
