

# Proud of Me

Angie Stone

I'm proud of me, proud of me, proud of me, proud of me  
I've been through dark nights when all I did was cry  
Made the best decision of my life when I said  
Goodbye to you (4x)  
And I feel much better I'm keeping it together

I'm proud of me now what was I thinking  
How did I lay myself stick so low  
Tried to change you now I don't even want to know what  
Listen, you ain't gonna change  
You won't ever change  
What are we doing here?  
I save myself my time and my deed  
When I said

I'm proud of me, proud of me, proud of me, proud of me  
I've been through dark nights when all I did was cry  
Made the best decision of my life when I said  
Goodbye to you (4x)  
And I feel much better I'm keeping it together

I wasted so much energy  
Giving up myself I mean the very best of me  
The things I sacrifice just to make it right  
Dreaming of a better life  
You ain't gonna change ain't ever gonna change  
Oh he's lonely and he's staying here  
I'm over you and not about to shed another tear

I'm proud of me, proud of me, proud of me, proud of me  
I've been through dark nights when all I did was cry  
Made the best decision of my life when I said  
Goodbye to you (4x)  
And I feel much better I'm keeping it together

There is a time that I,  
I lost my smile (I lost my smile)  
That ain't my style  
It's just a trial  
But I knew in my heart  
That this could not go on  
It's been way too long  
And I grew strong

I'm proud of me, proud of me, proud of me, proud of me  
I've been through dark nights when all I did was cry  
Made the best decision of my life when I said  
Goodbye to you (4x)  
And I feel much better I'm keeping it together
