

# Sisters

Angie Stone

My life and I  
Surely I can testify  
When life gets you down  
You need a true friend around

Whenever I need you you're always there  
You near here to listen show me love and give me wisdom  
Someone who understands me and cares about my feelings  
Girl I love you so and I want you to know

Let's make a vow that we'll keep this together  
You are my sister no matter the colour  
A friend in need is a friend indeed  
My sister, my sister you can always count on me

When I seem tossed and drilled  
You uplifted me with worship given  
Dragged through some things  
And I'll forever be your sister in return

I'm here for you and you're here for me  
That's how a friendship supposed to be  
Come day or night storm some rain or shine  
We'll stay side by side for the rest of my life

Let's make a vow that we'll keep this together  
You are my sister no matter the colour  
A friend in need is a friend indeed  
My sister, my sister you can always count on me

With each other we can win  
We will always be best friends  
And it's you that I can rely all to let me know  
With you by my side and Him as our guide  
You don't have to worry nah,  
'Cause you are my sister

Let's make a vow that we'll keep this together  
You are my sister no matter the colour  
A friend in need is a friend indeed  
My sister, my sister you can always count on me

Whenever you need me  
Call  
Whenever you want to  
Whenever you need me  
You're my sister
