

# Stay for a While

Angie Stone

Well, well

If you would just stay for a while  
Sugar, we could find something to get into  
Baby boy, it's all you  
If we could just lay for a while  
Let me ease your mind  
Help you to unwind  
Spend a little quality time

Girl I know it's getting difficult to sleep at night  
I'm goin' to work, there's no one there right by your side  
I called you up to say I'm coming home in a few days  
And I would like it if we could just lay and play for a while

If you would just stay for a while  
Sugar, we could find something to get into  
Baby boy, it's all you  
If we could just lay for a while  
Let me ease your mind  
Help you to unwind  
Spend a little quality time

Oh, oh I'm missing you so much  
I'm making plans for me and you  
We gon' unplug the phone, soon as you get home  
Did I hear you say you're coming home in a few days  
Baby I can't wait, I anticipate

If you would just stay for a while  
Sugar, we could find something to get into  
Baby boy, it's all you  
If we could just lay for a while  
Let me ease your mind  
Help you to unwind  
Spend a little quality time

Whoa oh oh, I don't know about you  
(Said I don't know about you)  
I'm in the mood  
And I can hardly wait to love you over and over  
(I can't wait) and over again  
I'm keepin' my faith (No no no no)  
Yes, I got a jones, don't wanna be alone  
Come (I don't wanna be alone) over  
Oh oh, I'm missing you (See you, oh)

If you would just stay for a while  
Sugar, we could find something to get into  
Baby boy, it's all you  
If we could just lay for a while  
Let me ease your mind  
Help you to unwind  
Spend a little quality time
