

Take Everything In

Angie Stone

Lord knows I gotta be
True to myself to see
God's been too good to me
To take things I believe

We all know that we got better days
Even when our world is grey
Trouble don't last always
That's why I'm leaning on my friends

R: Sometimes we gotta stop
And take everything in
Make room for my new dreams
Look back on the old scenes

It's time for me to step up
You gave me a reason
To walk into my season
I've only just begun

So busy worryin' bout the little things
When someone else is doing worse than me
Somebody out there got a child in need
I never sold you down for you and me

And the air we breathe
Maybe ain't even healthy
Cause in the forest there ain't no trees
Don't tell me that don't make you stop and thing

R:

I'm so grateful (said I'm grateful)
I'm where I wanna be (right where I wanna be)
Every Blessing...
Every Blessing means more than life to me

R: (3x)

Cant let it get me
I'm just too rested to be stressed
Like some people be...
