

# Black Hearted Soul

Angra

Christus rectus  
Anima nostro semen  
Oh, miserere nobis  
Gloria in excelsis

Omnipotens dominus  
Primoris Agnus Dei  
Christus rectus  
Dona nobis pacem

Now my monster is awake  
Have no guilt for my mistakes  
Still I know I have a lot to learn  
I can see it through your eyes  
All your demons in disguise  
I'll protect myself from getting hurt

Won't be a fool no more  
Won't fall into your trap

You control your evil side  
And I do the same with mine  
Just don't want you in control of me

Won't fall into your curse  
I see you everywhere

Go! Black Hearted Soul  
Won't you fly on the wings of tonight?  
Find your way through the rainbow of darkness  
Towards the light  
Won't you go! Black Hearted Soul  
You will fly on the wings of a dream  
Find your way through the rainbow of darkness  
Towards the light

From the king of the darkness  
And find your way out

Won't be a fool no more  
Won't fall into your trap

Go! Black Hearted Soul  
Won't you fly on the wings of tonight?  
Find your way through the rainbow of darkness  
Towards the light

Won't you go! Black Hearted Soul  
You will fly on the wings of a dream  
Find your way through the rainbow of darkness  
Towards the light

Through the darkness  
From the king of the darkness  
Find your way out
