Home you go tonight To break the sound of tears Life's fading To keep the world away Is not enough to ease the pain Time is passing by... Time is passing by; I see it in your eyes Fire burns inside A light that's caught between Night and day Sun's been set to die The supernova in your mind Time is passing by I see it in your eyes (repeat) Time is passing by I see it in these eyes (repeat) They tell me all! You can't deny It's in your eyes Visions disappear Memories of a dream Surrender Give them to the wind Deny your sorrow, live again Time is passing by I see it in your eyes (repeat) Time is passing by I see it in these eyes (repeat) They tell me all Time is passing by I see it in yours eyes (repeat) Time is passing by I see it in these eyes I see it in your eyes They tell me all! You can't deny You know you tell me lies
