Wishing to be dead when hope is gone Depreciating life when the days are looking bad Sick of being alive when everyone is vain Lost your hopes and now you fight against depression Cause life's hard for everyone just look all around you So why squander all your power on self-destruction Too proud to make amends Your faith, it all depends - hold on tight... Too scared to be alive? Salvation suicide calling me! A long way to hell My spoiled paradise has met this dead end Cause I live my life all on my own with pride Too proud to make amends Your faith, it all depends - hold on tight... Too scared to be alive? Salvation suicide haunting me! Get out of my way! Get out of my way! On my way to hell
