Stand Away

Stand away the dreaded burning life Will leave its mark for those with no desire Stand in front of the whole creation Face the people starved like worms Still I'm begging for comprehension From the ones who rule us all Is this field the dying embers soul All around we mourn Oh, here they come again (Now they're coming more agressive tearing down our only chance s) The stars can't find the purple sky (Loneliness will find its reason treasured seeds for every seas on) Long for the day be back someday And the church (Church is selling consolation, killing Jesus for salvation) Don't let us die (Taking all in desperation, leave me now to rest in peace) Let me rest in peace Away, a while Our smile taken from

Our smile taken from The hearts of brokens souls

Stand away from the fire Destined by the fate Let those sinners pay how they steel For on the judgement day How they yield
