

# The Temple of Hate

Angra

Revolution striking down right now!

Blind fools fighting for the power to command  
Flag poles threading down the freedom of our men  
Innocence dying by the fury of the sword  
Poor men falling before saying their last words

Revelation code XI  
Striking over us

Sounds of revolution  
Freedom is proclaimed

Bells announcing changes for the better  
in the temple of hate  
The Temple of Hate!  
Satan awaits!

Revolution we have waited  
Burning down our souls

Sounds of revolution  
Freedom is proclaimed  
Bells announcing changes for the better  
in the temple of hate  
Satan awaits!  
The Temple of Hate!
