

You always come to me, moaning through the years  
About your past.  
And strange as it may seem, it never came to you,  
The way ahead

Fears you try to hide, hurting deep inside  
You can't deny the past!

Tears of a violet sky  
Lost in the fallen rain

Seasons pass me by, the everlasting circle,  
A wicked plan  
Is it the destiny? Was it meant to be?  
It will not matter anymore

Please, it's time to break the chains  
The past you cannot change  
Time to let it go

Things you try to hide, hurting deep inside  
You have to live behind!

Tears of a violet sky  
Lost in the fallen rain  
Dead roses hear my cry  
Flowing in vain  
Fears you try to hide burning deep inside  
You can't deny the past!

Rinnega il tuo passato  
Risplendi nell' oscurità  
Stella senza età

Riflessi di passioni  
Celate tra le tenebre  
Raggio di luce
