

## Staring At The Sun

Angry Samoans

The Sun comes out twice a day  
I cannot move I can't get away  
So long ago when my life was young  
I did not know the dangers of the Sun

And I'm staring, staring  
At the Sun... at the Sun.

The 85th planet from the Sun  
It's so very cold  
It's so fucking cold

And I'm staring, staring  
At the Sun... at the Sun.
