Little Bird

Angus & Julia Stone

Going nowhere fast today Got nothing in mind A soldier dies as I feel no pain Got nothing in mind

The little man sticks by his ways His only hand is from the clock And time is killed whispered these days The quarter star still hits the spot

Little bird took to the sky I watched the rain fill the rusty town Dreamers dream only in the mind The spinster lets nobody in Nobody in

Little bird took to the sky I watched the rain fill the rusty town Dreamers dream only in the mind The spinster lets nobody in Nobody in Nobody in Nobody in
