

Please You

Angus & Julia Stone

She's just dying to meet ya
She's just dying to meet ya
She's just dying to meet ya
She won't leave till it's done
She won't leave till it's done

She's just dying to please ya
She's just dying to please ya
She's just dying to please ya
She won't leave till it's done
She won't leave till it's done

She bring the light shining down
She bring the light shining down
Won't ya, bring the light shining down
I need ya, to bring the light shining down

You're just dying to love her
You're just dying to love her
You're just dying to love her
You won't leave till it's done
You won't leave till it's done

Bring the light shining down
She bring the light shining down
Won't ya, bring the light shining down
I need ya, to bring the light shining down
