## **Soldier**

## **Angus & Julia Stone**

I met him down by the bay, he said life is a stranger that wont go away.

He took me by surprise, and I felt for the first time, what its like to be alive

I'm a soldier, but I don't know how to fight. I'm your best friend but I'm scared to see you tonight. I'm the darkness, but I want to be the light, oh how I want to be, oh how I want to be.

I met him down by the sea, said I look like someone he knew. I said I don't know anyone, so how could I possibly know you.

He touched my hand, finally I understand what it means to be here with you.

I'm a soldier, but I don't know how to fight. I'm your best friend but I'm scared to see you tonight. I'm the darkness, but I want to be the light, oh how I want to be, oh how I want to be. [2x]
