

# Deferred Gratification

Ani DiFranco

Deferred gratification you are my new best friend  
I got kids and so do my friends  
It'll never be our world again

But look how weary the chief  
It'll be a relief to someday hear her say  
"Get it yourself, get it yourself"

Frozen soldier mannequin  
In the back of the wax museum  
Weekdays it's only five bucks to get in  
See him Friday fighting a battle he'll never win  
But look how weary the chief  
It'll be a relief to someday hear him say  
"Get it yourself, get it yourself"

Deferred gratification you are my new best friend  
I vote in every election  
Hope someday these kids are gonna help us win  
But look how weary the chief  
It'll be a relief to someday hear him say  
"Get it yourself, get it yourself"
