

Harder Than It Needs to Be

Ani DiFranco

Honey please don't laugh at everything I say
In a humorless way
Honey please don't roll your eyes around
Just to put me down
It's exactly as hard to talk to you
As it is to talk to me
Let's not make this harder
Than it needs to be

I know I married your mama
And I married your papa
When I married you
And right now it's clear
Who I'm talking to
We better just step back
We better take a breath
See what we can see
Let's not make this harder
Than it needs to be
