

# Lying in the Grass

Animal Collective

All the pieces where they ought to be  
But it's clear that he don't look like me

Pick a place around the table talk  
Make a push to wake the comatose

Say you pause to say what's wrong and quickly  
Blow up the cover  
There's a way through fogs as long as there's a light to discover (it)

Like a twisted stick  
Let's dig through the sick  
And find a level space  
Cinch to say

It's a gut that fears all things unknown  
And a link within the brain you know

Not a shame to say the instincts there  
But a virtue to deny the bait

Know the cause and move to gauze and deftly  
Tratar o sangue (clean up the blood)

In the law there's room to move  
As there's a need to uncover it

As a choker sucks  
Let's sift through the muck  
And lift this dingy veil  
Same old tale

Get mixed in  
This crippling fixture  
Try and approach  
The hidden mixtures  
Get mixed in  
This crippling fixture  
Try and approach  
The hidden picture it

For a misplaced stash  
Let's search through the trash  
And right this ignorant lurch  
Wicked urge

Raise the gab  
Above a whisper  
Speak to salve  
A spoiling blister  
Raise the gab  
Above a whisper  
Talk to cure a blister  
Picture it
