

Whaddit I Done

Animal Collective

Oh no, it's night time
Where I park outside
Whaddit I done in the daytime?
Where am I out in the night time?

Going crazy
At the funny ball
They are dancing
At the wrong mall
With the right girl
And the low and mine
And they left the stall

And it's daytime
Ease and let me in
I love when we come
And it's good so
And it cures stress too
And it blows your mind
It's a neat time
Any wish now
We've got free hands
Go and need hands
Is where we were
Out takin' these times

It's a good day
For a new call
Where we come to say
That I need ya
And I need ya
When I need ya
And I need ya
When we need ya
Do I need ya
Yeah I need ya
Do I need ya
