

Bright Lights

Animal Kingdom

Please, don't leave me here
Cause I might not make it
Stop. Stop confusing things
With your twisted thinking
Wait, at the waters edge
I will meet you there

World it trembles as it starts to spin
Sky it cracked and now its falling in
There were bright lights, there were dollar signs
Ties that bind you

And we'll sail toward the light
Through the stars, through the night
And we'll sail toward the light
Through the stars, through the night

Feet may stumble if you leave the road
And theres no compass thatll guide you home
But there were bright lights, there were dollar \$igns
Ties that bind you

And we'll sail toward the light
Through the stars, through the night
And we'll sail toward the light
Through the stars, through the night
