

Two By Two

Animal Kingdom

Floods start coming, the waters rise
Voices start to multiply
There's something animal in your eyes
And in all of us

Jaws locked tight and they wont let go
I twist and try and shake them slow
And we'll be taking the long way home for its calling us

Animals we are
I don't want to go out hunting
Keeping us apart
We move as one

Animals we are
I don't want to go out hunting
I will build an ark
For the rain to come

So you bitter ...?
You've got poison on your tongue
Yeah were all animals everyone one
As in all of us

So there's something I just cant tame
Lights and candles starts again
Dance as long as the music plays
For its calling us

Animals we are
I don't want to go out hunting
Keeping us apart
We move as one

Animals we are
I don't want to go out hunting
I will build an ark
For the rain to come

And what if underneath the words
And what if underneath the clothes

And what if underneath the words
And what if underneath the clothes
We are animals

Animals we are
I don't want to go out hunting
Keeping us apart
We move as one

Animals we are
I don't want to go out hunting
I will build an ark
For the rain to come

Animals we are

I don't want to go out hunting
Keeping us apart
We move as one

Animals we are
I don't want to go out hunting
I will build an ark
For the rain to come...
