Floods start coming, the waters rise Voices start to multiply There's something animal in your eyes And in all of us

Jaws locked tight and they wont let go
I twist and try and shake them slow
And we'll be taking the long way home for its calling us

Animals we are
I don't want to go out hunting
Keeping us apart
We move as one

Animals we are
I don't want to go out hunting
I will build an ark
For the rain to come

So you bitter ...?
You've got poison on your tongue
Yeah were all animals everyone one
As in all of us

So there's something I just cant tame Lights and candles starts again Dance as long as the music plays For its calling us

Animals we are
I don't want to go out hunting
Keeping us apart
We move as one

Animals we are
I don't want to go out hunting
I will build an ark
For the rain to come

And what if underneath the words And what if underneath the clothes

And what if underneath the words And what if underneath the clothes We are animals

Animals we are
I don't want to go out hunting
Keeping us apart
We move as one

Animals we are
I don't want to go out hunting
I will build an ark
For the rain to come

Animals we are

I don't want to go out hunting Keeping us apart We move as one

Animals we are
I don't want to go out hunting
I will build an ark
For the rain to come...
