

White Sparks

Animal Kingdom

I want it forever, just want to be here, the sooner the better
as long as
you're near

And your heart holds us together and it all starts here

With these white sparks when we're together and its all so clear

You are not alone

Fires already dancing in your eyes

Notes just lighting up the dark

Simmering in gold

Stars collapsing

Watching them explode

Like fireworks in your eyes

Cause when we're together, whenever your near, I want it forever,
I want to
be here

These white sparks when we're together and it all starts here

These white sparks when we're together and its all so clear

You are not alone

Fires already dancing in your eyes

Notes just lighting up the dark

Simmering in gold

Stars collapsing

Watching them explode

Like fireworks in your eyes
