

# Walls Of Jericho

Animal Liberation Orchestra

Oo-oo-oo-oo oo-oo, it's all right  
My time's comin' but it's not tonight

Get out the tents and set up the floods  
Bring in the trucks and make some more mud  
Then get the hell out of my way 'cause I'm gonna get wasted  
As magic gasses fill the air  
It's bad for your health but I don't care  
This'll all be gone tomorrow but we'll still be able to taste it  
The golden chord is frayed, what was that song they played  
Our steed lies melting in the sun  
They flooded the parking lot, our tent begins to rot  
And I'm in love with everyone

I know everything will be alright  
My time's comin' but it's not tonight  
So let's keep going 'til the morning light if it's free I'll take it  
I know everything will come back 'round  
Five white horses on an ocean of sound  
Until it all comes crashing down like the walls of Jericho

Stop, children, what's that sound  
Another bunch of phreaks just rolled into town  
In a broken down bus with a crew that's fallin' to pieces  
You got to get up, stand up, walk a straight line  
Been drunk for three days but you're doin' fine  
Just a little bit out of your mind but you're takin' it easy  
All you really need is one more hour of sleep so you  
Lay your head upon the floor  
Just a little sleep before it gets too deep  
You wake up come back for more

I know everything will be alright  
My time's comin' but it's not tonight  
So let's keep going 'til the morning light if it's free I'll take it  
I know everything will come back 'round  
Five white horses on an ocean of sound  
Until it all comes crashing down yes I know we can  
Make it to the other side  
Everything is blowin' my mind  
The man on the magic tricycle would like to take you for a ride
