

# The Planets

Animaniacs

Yakko: The closest to the Sun  
Is the planet Mercury  
Next the shrouded planet Venus  
Is as cloudy as can be.

The Earth is next; we call it home  
Let's hope it stays that way  
And then there's Mars; it's really red  
What more can I say?

The gassy planet Jupiter's  
As big as planets come  
Then there's Saturn with its mighty  
Rings made up of tiny crumbs.

We travel on to Neptune  
That's a gassy, freezing ball  
And cold and tiny Pluto  
It's the furthest one of all.

Yakko: (spoken) Well, there you go. That's our solar system.

Wakko: You forgot Uranus.

Yakko: Goodnight, everybody.
