Do You Believe Me

Anita Baker

When I say to you that my love is true
Do you believe me?
And when I try to give my love to you
Do you receive me?

When I try to do my best and you put me to the test
Baby, do you deceive me?
So baby, do what you gotta do and when
You're gonna need me

Don't confuse your mind with what
What the other people say
'Cause you will see in time baby that my
My love is here to stay

They gonna try to come between us baby
We can't let them in our way
We have got a good thang going
Don't you let it slip away, yeah
Don't you let it slip away, yeah

Believe in me
Believe in me
Believe in me

Now I can deal with the problems
That the world has put on me
But sometimes it just gets so hard and I
I just feel so weak

I really need you baby, baby to believe in me
'Cause the more you do, the better I'll be
And I promise you, I'll never leave
'Cause this is where I want to be, yeah

Believe in me
Believe in me
Believe in me
...
