

# Lonely

Anita Baker

You don't know what i been thru  
Its been rough I'm telling you  
All night long toss and turn  
Nobodies bridges left to burn

I tell you a story about a lonely girl  
Had no one to love her  
In the whole wide world  
You know she was lonely, lonely

Didn't want to feel this good  
Didn't know I ever could  
You spoke, your voice so sweet  
Child your sound surrounded me

I'll tell you my story about a lonely girl  
Had no one to love me  
In the whole wide world  
You know I was lonely, lonely....yeah

Unlock my chains, child and set me free  
I'm a different woman, look at what you done to me  
Don't know what you did babe, but it feels so right  
Don't know how you did it, but do it again tonight  
I'm walking on over, I'm coming on in  
I'm depending on you, so won't you be my friend  
Be my...

Didn't want to feel this good  
Didn't realize that I ever could  
You came here, you came to stay  
I'm so glad cause babe you made me day  
Yeah, yes you did
