Winter Song

Anita Lipnicka

Snow... snow... snow... everything's getting white there are no birds in the park they've gone.

Snow... snow... snow...
winter's comin again
I can feel her breath
it's so cold

O! Baby, the way to you seems so long today like I've been walking for years O! Baby, I've got a message for you that will make you sad killing the smile on your face... killing the smile on your face...

Snow... snow... snow...
everything's getting white
there is no love in my hearth
it's gone
