## **Heaven On Earth**

## **Anita Meyer**

Hey, this is heaven on earth And it's riding to you Heaven on earth We're inviting you to

Come to the station To meet the sensation Eight o'clock tonight

We'll sing you out of your head And give you the best evening You've ever had And even more 'cause you better do believe

The boys in the band show Who'll give us a hand then Play you things you will like

These chicks are out of sight Singing the songs for you They'll give you dynamite Doin' the dance they do, they sure do

You should hear these guys when they are playing the blues Rhythms and the chants will beat you of your shoes

This is heaven on earth And it's coming to you Heaven on earth We're inviting you to
