

Make Believe Lovers

Anita Ward

As love fades, My heart says
There's more to being in love
The magic we make
Has been replaced

So we make believe that we are lovers
While we're livin' here with one another
We make believe that we are lovers
While we're livin' here with one another

We're lost inside this love disguise
We've longed to get so much
And so long love supreme,
This lovin' team

So we make believe that we are lovers
While we're livin' here with one another
We make believe that we are lovers
While we're livin' here with one another

There's too much at stake
To just walk away
From the truth that's believed at last

So we make believe that we are lovers
While we're livin' here with one another
We make believe that we are lovers
While we're livin' here with one another

We make believe that we are lovers
While we're livin' here with one another
We make believe that we are lovers
While we're livin' here with one another
