

Brothers At Arms

Ann Beretta

Working all day to look a devil in the eye
we're brothers at arms and we fight a good fight, just another
line to record my time
standing together through the wrong and the right, i tell you r
ight now that i know a thing or two
together we stand and together we fall, i'll tell you right now
that i do know more than you
standing as one you know we stand tall, try so hard i wanna fig
ure out if i'll take it
tell you right now i don't wanna do without
will fake it?
