

# Love Vibration

Ann Peebles

We don't need to shed a tear  
Cause its too late for us to cry  
If we had of known what we had goin on  
We would've never let this feeling die

We let a love vibration, pass us by  
We let a love vibration, pass us by

I can still recall the feeling  
Boy you made me feel so good inside  
Because we both had been used by love before  
We thought this feeling we had to hide

We let a love vibration, pass us by  
We let a love vibration, pass us by

Neither one of us played the game by the rules  
I was too busy being tough and you were too busy being cool

Next time around I'll be ready  
If the feeling ever comes again  
I won't be a fool  
I'll play the game by the rules  
I won't let this feeling get away from me again

We let a love vibration, pass us by  
We let a love vibration, pass us by  
We let a love vibration, pass us by  
We let a love vibration, pass us by
